

# HipSaver Canada

**The Leader in Hip Protection With a Variety of Models to Suit Every Need**

### HipSaver SlimFit

A fashionable garment designed for people living independently in the community. So discreet, nobody will know that it's being worn under most clothing. The pant is made from comfortable polycotton fabric in an attractive light coffee colour and contains no latex or skin irritants. The SlimFit model will accommodate incontinence liners comfortably.

### HipSaver Nursing Home

A utilitarian garment designed for people living in a long term or home care environment. Wide leg openings ensure comfort when worn over top of incontinence briefs. The pant is made from comfortable polycotton fabric in an attractive light coffee colour and contains no latex or skin irritants.

### HipSaver Open-Bottom

Requested by nursing staff who saw a need for residents to have a garment that permits easy toileting, the open crotch design is perfect for residents with urge incontinence or challenges in getting clothing on and off. The HipSaver Open-Bottom design retains the discretion of the SlimFit models making it perfect for community dwelling residents as well as those residing in assisted living facilities.

*Also available in a 3 snap design for use over top of incontinence briefs*

### HipSaver QuickChange

A functional garment designed for people living within a long term or acute environment who are dependent on staff to change their incontinence briefs. The drop down crotch panel assists staff with quick changes of incontinence products. Simply undo the domes on the front of the pant and the underwear can be raised up over the hips. Once the incontinence brief is changed, reposition the HipSaver and dome up the crotch. The pant is made from comfortable polycotton fabric in an attractive light coffee colour and contains no latex or skin irritants.

### HipSaver Interim

Perfect solution for immediate need and short-term use situations. Because HipSaver Interim is not underwear it does not need to be patient specific. Keeping a small supply in stock will assure that you can offer seamless protection to those at risk for falls and fractures. HipSaver Interim is cut to a capri length. HipSaver Interim features the same HipSaver Hip Protector pads that thousands in Canada and around the world have come to rely on for the ultimate in hip protection. HipSaver Interim is available in grey colour only.

### HipSaver Wrap&Snap

The another innovation from HipSaver developed in response to requests from nursing staff for a hip protector that is both functional and easy to manage when a resident needs a complete change of clothing or because balance issues make changing a prone resident easier. To change a resident, simply unsnap the drop down crotch panel followed by the front panel. The snaps are reinforced because caregivers told us they wanted a quick, one-handed operation. HipSaver Wrap&Snap is made from a comfortable polycotton fabric.

### HipSaver SoftSweats

Perfect for both women and men. This all soft hip protector has the same proven protection as our other models but in a comfortable, casual style. Six hip sizes and two lengths for a perfect fit. Machine wash and dry. HipSaver SoftSweats are pre-shrunk to fit properly. Available in navy, grey and black. *Also available in shorts.*

**Tailbone Padding, Fly Front & EZ Pull Handles**  
Available as Options on Most Models

"Fraser Health's expert on falls prevention says a lot of teamwork - and a little padding in the right place - has helped Burnaby Hospital cut in-hospital hip fractures suffered by seniors by a whopping 80% over the last four years."

**Michael Bernard,**  
Fraser Health's InFocus newsletter, September 2007

HipSaver is the only brand trusted by many health care authorities and professionals to provide high efficacy combined with a wide variety of styles to suit patients, residents and health care staff.

**CRA has granted HipSaver Canada the ability to zero rate the HST/GST on our hip protectors provided the order is accompanied by a prescription. (form is available on our website [www.hipsaver.ca](http://www.hipsaver.ca))**

### To Measure

Measure around the widest part of the hips. Take the measurement over top of the underwear or incontinence brief, whichever is typically worn. **Should there be factors that may influence your sizing choice please call our office.**

| Hip Measurement Inches | Size | Hip Measurement Centimeters |
|------------------------|------|-----------------------------|
| 28 - 32                | XS   | 70 - 81                     |
| 32 - 36                | S    | 81 - 92                     |
| 36 - 40                | M    | 92 - 102                    |
| 40 - 45                | L    | 102 - 114                   |
| 45 - 51                | XL   | 114 - 129                   |
| 51 - 57                | XXL  | 129 - 145                   |
